Place of residence: .....  
Phone Number ..... Fax: .....  
REGISTRY No:.....

### II. SUBJECT OF ORDER:

#### Construction of the University Veterinary Clinic in Herat– Afghanistan

**III. – The contractor declares to implement the project: construction of the University Veterinary Clinic building including the guard room and the surrounding wall in Herat (Afghanistan) according to SIWZ ('project specifications' – SIWZ specification order signature: 60389 – 2010)) published at [http://www.edukacjadlapokoju.org/doc/siwz\\_2010\\_klinika\\_weterynaryjna.pdf](http://www.edukacjadlapokoju.org/doc/siwz_2010_klinika_weterynaryjna.pdf) - for amount ..... USD (inclusive of all taxes) (details are attached to the offer)**

The main features of the building are as follows:

- University Veterinary Clinic will be constructed according to the construction plan prepared by the Engineering Faculty of the Herat University in Afghanistan based on the internationally recognized Engineering Norms and Standards 2007 used in Afghanistan and approved by The Governmental Engineering Department.
- The construction plan includes following elements of the University Veterinary Clinic:
  1. a two-floor building,
  2. a guard room,
  3. a cesspit container size 4.5m x 3.5m including water supply and sewage system,
  4. surrounding wall 2 meters high constructed with stones for at least 1.2 meters and additionally strengthened with the RCC frame,
- a University Veterinary Clinic will have 10 rooms and toilets:
  - three examination rooms, a pharmacy room, administration room and two toilettes on the ground floor,
  - two examination rooms, manager's office, financial office, kitchen and two toilettes on the first floor,
  - preferably: ramps will be constructed to allow access to the ground floor for the disabled.
- The building will be constructed with the burnt bricks strengthened with the RCC frame.
- Outside walls will be 30 cm thick, floated by plaster and painted.
- Floor in laboratories, toilets and kitchen will be covered with terracotta.
- The roof will covered with iron sheet.
- The construction of the school building will be solid enough so that in subsequent years next floors can be constructed on the top according to the plans of the Herat University.
